OUTDOOR LIVING/LANDSCAPE | Location: Miami, FL

The inspiration and goal for this project was to create a tropical Balinese style home with all of the indoor amenities included in the outdoor spaces, with seating and space for hosting guests.

SPECIALTY SPACE | Location: Miami, FL

The goal was to create a comfortable and beautiful home theater without sacrificing cinema quality. The entire room is designed with acoustics in mind, including the curvature of the ceiling, seating, and bartop with additional seats, as well as the acoustically treated embossed wallpaper. The Barovier and Toso lighting reflecting off the cool blue glass of the bartop serve to contrast against the surrounding matte materials and neutral colors.

**TRANSITIONAL STYLE
OVER 3,000 SQUARE FEET**

Location: Boca Raton, FL

This extraordinary 10,000 square foot new construction home in east Boca Raton was designed as a spec home. We were brought in from the very beginning and able to work with the architect on all of the home's details.
